

Class Prep

Prior to the class please download the class materials. You can do this through GitHub:

<https://github.com/Skillsoft-Content/AngularBootcamp>

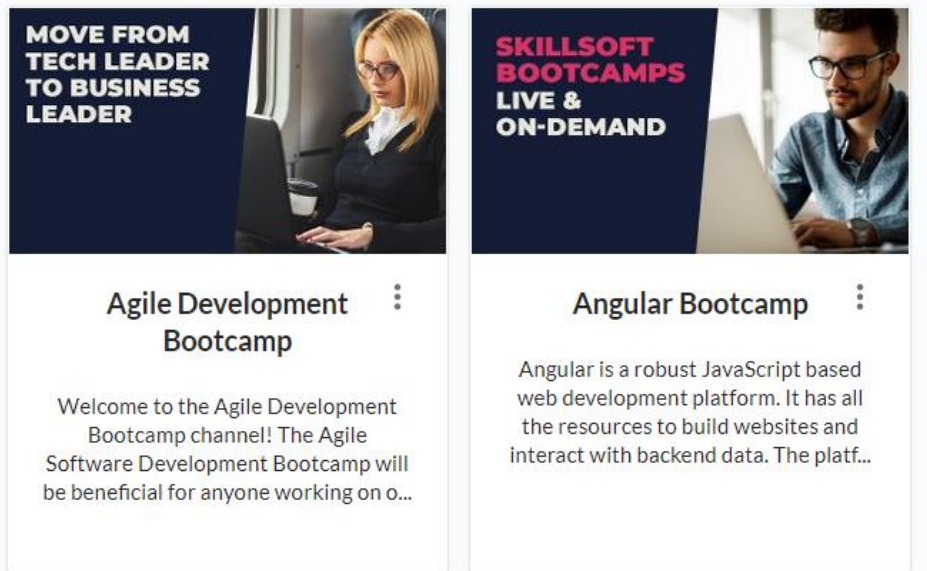

If you are a Percipio user:

1. Log into Percipio
2. Select 'Library' > 'Skillsoft Bootcamps' > 'Software Developer Bootcamps'
3. Choose 'Angular Bootcamp'

Software Developer Bootcamps

Browse all of the Software Developer Bootcamps content below.

- On the right side of the page select the “Resources” drop-down.

The screenshot shows the top section of the Angular Bootcamp page. The header includes the title "Angular Bootcamp" and a description: "Angular is a robust JavaScript based web development platform. It has all the resources to build websites and interact with backend data. The platform does have a steep learning curve, however this course is...". Below the header is a navigation bar with tabs: "Watch", "Read", "Practice", "Attend", and "Resources". The "Resources" tab is selected, and a dropdown menu is open, showing two options: "Angular 14 Day 1 Files" and "Angular 14 Day 2 Files". Below the navigation bar, there is a course card for "Angular Bootcamp: Session 1 Replay" by Axle Barr, an IT Instructor. The card includes a video thumbnail, the course title, a description, and a "View More" link.

- Then choose the files to download.

This screenshot shows the same Angular Bootcamp page as the previous one, but with the "Resources" dropdown menu open and the "Angular 14 Day 1 Files" option selected. The dropdown menu is positioned over the course card, and the "Angular 14 Day 2 Files" option is also visible. The course card for "Angular Bootcamp: Session 1 Replay" by Axle Barr remains visible below the dropdown.

Install

You will need to install the latest version of Angular and an editor:

- The latest Angular CLI - <https://angular.io/guide/setup-local>
- VSCode - <https://code.visualstudio.com/download>

Lab Sandbox

If you are not able to install the software locally, feel free to use the **Full Stack Development Sandbox**. To locate the lab in Percipio:

6. Log into Percipio
7. Select 'Library' > 'Skillsoft Bootcamps' > 'Software Developer Bootcamps'
8. Choose 'Angular Bootcamp'
